*Traditional signposts point the way for Tech Titans — to the School of Schools, to four years of opportunity, to interaction with friends and community, to graduation! 1992 Seniors Eric McCall, Aashish Patel, Eddie Kendrick, Anhtuan Nguyen, Jimmy Sissou, and Pat Pettengill celebrate.*

## ARSENAL TECH 1993 CANNON

Volume 79, 1500 E. Michigan Road  
Indianapolis, Indiana 46201

# Fire damages Arsenal's second floor January 26

Cleanup crews began by clearing debris from Arsenal the next day.

Applied teachers discuss ordeal and try to reorganize classes in new rooms.

Firewalls kept fire on one side of second floor. Only smoke and water damage was done.

In late afternoon of January 26, students and teachers in the Applied Academics and Technology classes on the third floor of the Arsenal smelled smoke. Teachers began evacuating students down the smokey stairs. Fire alarms were pulled, but dense black smoke soon filled the hallways. Mr. Lewis Mumford and Mr. George Reid checked restrooms for students. Mr. Reid, blocked by smoke, found a window where he could alert firemen. Smoke made it impossible for teachers below to reach him.

The second floor of the west wing sustained the fire damage, but smoke and water damage was extensive in the three floors. Four persons were injured. Mr. Reid was hospitalized for smoke inhalation. Mr. Mumford and John Estelle were also treated for smoke inhalations. A

fireman was injured when ceiling tiles fell on him.

IPS Public Relations Officer Mark Goff said repairs would cost some \$375,000. The building, listed in the National Registry of Historic Buildings, was scheduled for renovation. The 125 year-old Arsenal, remodeled several times, met fire codes for a building of its age. Arson was the official cause. Students were arrested and charged. Teachers were pleased with the way students responded to the emergency. All kept their heads and followed instructions.

Mr. Carl Duffy and his staff began the cleanup which was assisted by many IPS personnel. Although classes had to be placed in a variety of places over the campus, the administrative staff didn't miss a beat on the first floor.

## Seniors take final

### step at ATHS 1992

*Class of 1992 was led by Valedictorian Aashish Patel and Class Officers Angel Holmes, Tamyra Anderson, Tysha Hardy, and Linda Thomas. Vice President Richard Guthrie of the School Board addressed the seniors and guests at the 78th graduation ceremonies.*

*Now the Class of 1993 is "Walking to Success." As the school celebrates its 80th anniversary year, alumni and students help Tech to grow and strengthen. Fond memories are fine, but to keep Tech's message strong, graduates return in many capacities to advice and volunteer services. Tech is a strong sense of community as it heads toward the 21st Century.*

*Seniors celebrate their entry into the "real" world of graduates. Kelley Kaner and Chris Cazares pose in their white and green gowns after graduation. Michelle Reed, Salutatorian, accepts her diploma. Aashish Patel speaks to his classmates. Mr. Guthrie retired from the Board of School Commissioners this year for health reasons.*

# Winston Yacht and Country Club Prom Senior site

## "Unforgettable" evening for juniors and seniors

*Large crowds of Tech juniors and seniors came to the first prom at the Winston Yacht and Country Club. Prom theme "Unforgettable" was just that as guests rode the yacht, danced, and partied the evening away.*

*Mr. Russell took pictures to capture dancers as they hit the small dance floor. Wine glasses as souvenirs were soon gone, but sponsors Diane Richie and LaVerne Anderson were assured this was the "best*

*prom ever" by all who attended.*

*Missing her crowning because she was on the yacht, Queen Tasha Hardy was still delighted about the honor. King Michael Radford, Prince Dennis Baltimore, and Princess Courtney Nowling were other royalty. The music was selected so all tastes were satisfied. And the beautiful people were dressed to enjoy — that meant long and short gowns and tuxedos of all colors!*

*Couples crowd the dance floor to do their own "thing" and enjoy the music. Kim Vaughn and James Mobley ate dinner at the Cattle Company before attending the prom. It was rumored some couples visited Mickey D's to save a few dollars! But who knows for sure?*

*Prom Royalty Dennis Baltimore, Princess Courtney Nowling, and King Michael Radford preside at the 1992 Junior-Senior Prom at the Winston Yacht and Country Club. Both Dennis and Mike are athletes. Couples shifted from the dance floor to the yacht during the evening.*

*Queen Tysha Hurdy is now at Bradley University majoring in communications. She was editor of the newspaper. She worked for Day Adult Education and has formed her own public relations company. Her knowledge of desktop publishing has assisted her in becoming a newspaper editor at Bradley.*

Lining up against Washington, the Tech Titans hope to break the Homecoming jinx. Homecoming Royalty: Tameika Outlaw, Robert Suiters, Monica Chaney, Jeremy McKinney were crowned by Vice Principal Marilyn McCloud. Unfortunately, Tech had to kick the ball many times during the game.

## The weather was fine, the fans had fun; but, the jinx continued!

Everything was set for a great Homecoming. Spirit week had worked. Homeroms of Mrs. Kinghorn and Miss Eberle had won the door poster contest. The students had dressed up, down, in college colors and green and white. The parade was ready. Students had voted on the royal couples. Student Council under Mr. Banks and President Chazee Smith had organized the evening. The pep session was exciting.

Robert Suiters was crowned King while Tameika Outlaw was Queen of Homecoming. Joining them was Princess Monica Chaney and Prince Jeremy McKinney. Both of the young men also wrestle

for Tech.

As usual during football games, part of the crowd watched the game. Part of the crowd was on the move to find friends. Many alumni showed up, particularly from the class of 1992, to cheer the Titans on.

After the Royalty was crowned at half-time, the team returned to the field, but the game ended with the same result as past Homecomings — a loss. Coach Newton and his team tried their best, but Washington was a strong contender in IPS.

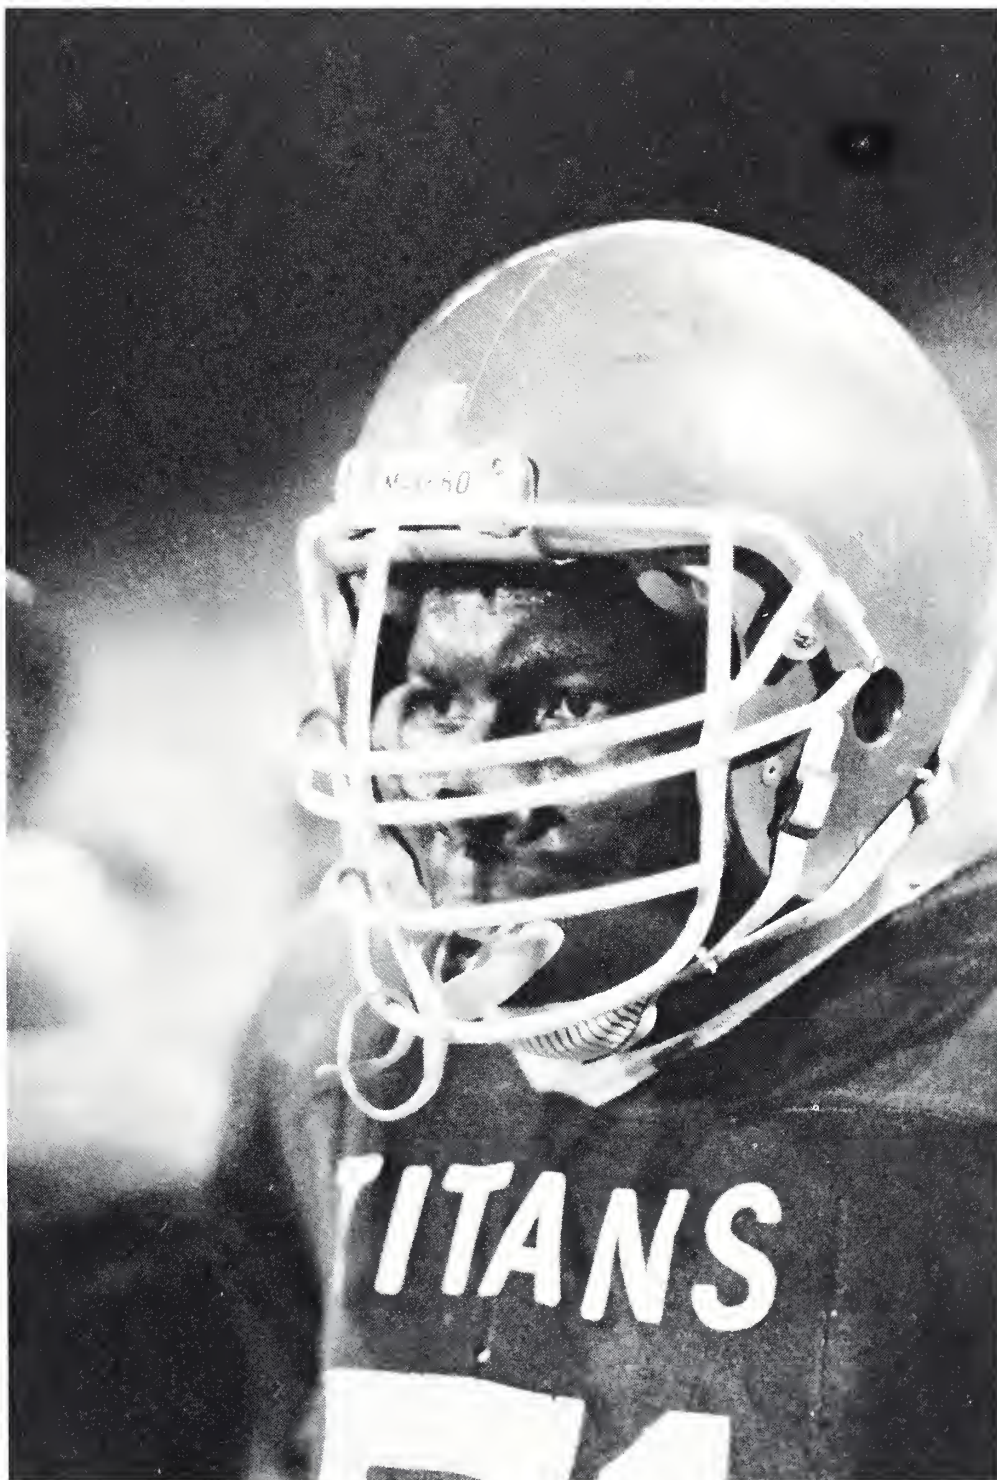

*Andre Caudle played both ways for the Titans. He was named Best Defensive Back.*

*Senior cheerleader Tamika Cushenberry displays some of her athletic ability needed to sustain spirit for Titans.*

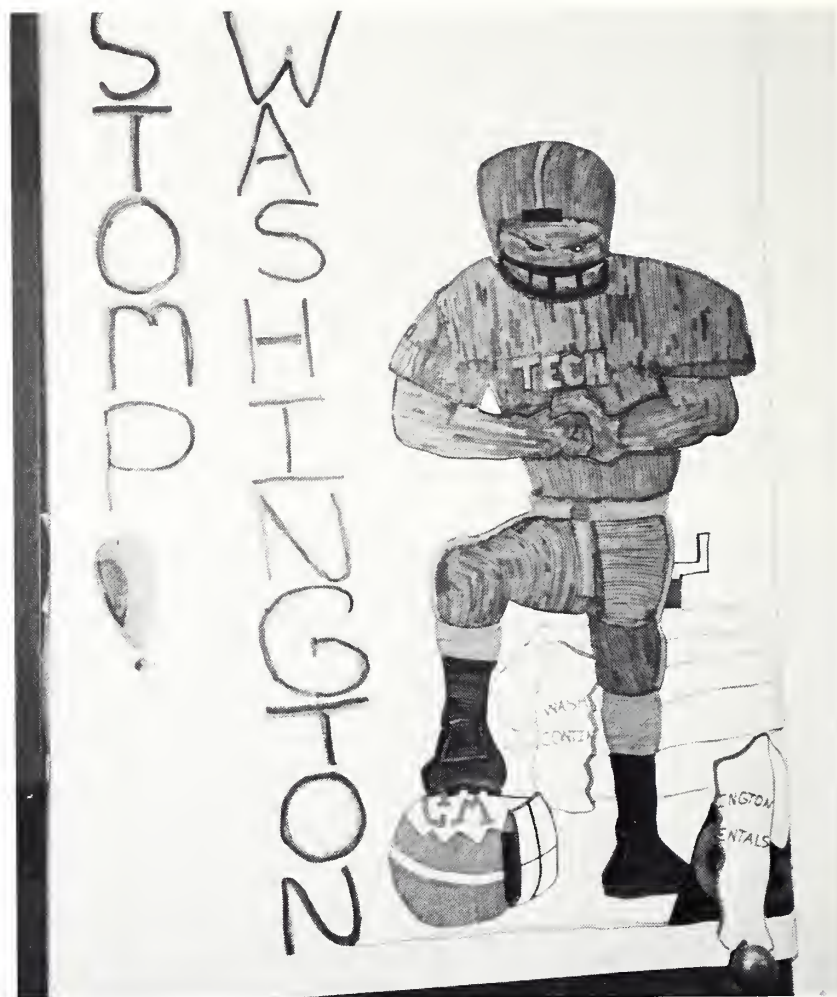

*Senior Greg Jones shows how the whole season went for the Titans. On a personal level, Greg won several awards for his hardnosed football play. He was named Best Defensive Lineman.*

*Homeroom 807 shared Homecoming Poster Door honors with Mrs. Kinghorn's class. Stomp Washington didn't exactly happen, but the spirit was there!*

*Freshmen Connections teachers meet parents and students at Parents in Touch.*

*Dave Mason, a member of masonry class of Mr. Dave Horton of the building trades curriculum.*

*Gospel Choir celebrated at Martin Luther King Jr. Park last fall. Members sing to accompaniment of piano and drums. The group performed several times in the community. Mrs. Coretta King attended the ceremonies.*

*Beta Club members helped pack treats for fourth graders so they could have a safe Halloween. The Beta Club is a service group.*

*Anthony Brown, Tonja Bishop, DeQuincy Winston, Leander Morris, and DeJuan Alfonzo create the winning Homecoming Door Poster.*

*Adding spirit to the pep rally, Homecoming football players perform for the crowd of Titan fans.*

# Baseball weather reflected record

Varsity Baseball ended with a record of 10-14 after a dismal beginning of 0-6. Snowy days and sun reflected the unpredictable Titans on the field. The team had more homeruns this year than last. Jason Graham led the team with Ray Bolen, and Jason Graham also with several. Jason's hitting average ranked him in state statistics. Sectionals were at Warren Central.

In the game against Howe, five Titan homeruns lifted the score to 17-12. After Ripple led the Titans 5-0 in the top of the sixth, batters hammered ten unanswered runs to win 10-5. The only loss of that week was to Roncalli. Other teams to fall were Lutheran (10-7), Arlington (5-1) and two with Northwest (17-3, 14-8). The loss that week was to solid Southport. Coach David George led the team.

The JV ended at 8-11-1 under Coach

Bob Helms. Steve Henderson slammed a 450 foot homerun against Arlington on April, 28. Another outstanding moment was the excellent comeback by the team against Pike even though they lost the game. Wins were against Washington, Broad Ripple, Lutheran, Arlington, Howe, manual, Northwest, and Washington, again.

Co-Most Valuable Players were Ray Bolen and Jason Graham. Catcher Joe Ahern won the mental award while Elton Pruitt was Most Improved. Another academic star was player Tom Vessely who won the Latin Award. Jason Graham earned a plaque for four major awards in baseball. Awards were handed out at Heritage House in June.*

# Softball Team earns first winning record in recent Tech history

Although Tech has been playing softball since 1982, last year was the first winning season. Tech was also IPSAC co-champions with Manual. Head Coach Jerry Hathaway, Assistant Coach Carroll Bannister, and Athletic Director Arnold Lehman handed awards to several at the end of the season.

## Baltimore leads swim team to 6-5

*Because of various reasons, the swim team had a 6-5 season. Captain and MVP Dennis Baltimore gave the team senior leadership. Steve Jugg was co-captain. Other seniors were Jonathan Bangert, Theon Smith, Mike Adkins, James Small, and Mike Davis.*

The varsity finished the season at 3-16. They lost to Perry Meridian in the first sectional match. Wins came against Washington, Arlington, and Indiana School for the Deaf. ## Varsity 0-9 most will return

Contributing most were Leo Carr, Malcolm Trotter, James Bowling, Derrick Taylor, Thomas E. Smith, Sylvester Moore, Edward Dean, Andy Hardy, Larry Parks, and Jeremy McKinney. Senior leadership came from Jeff Walls, Andre Caudle, Greg Jones, Jason Beck, Lonnie Johnson, and Antwan Stevenson. Injuries kept Jason, Lonnie, and Antwan missing games. Freshmen coached by Mark Rush had a winning record. Early wins were against Manual, Broad Ripple, and Arlington. There was no JV team. Thirty-four freshmen earned numerals for their efforts.

Freshman kicker boots it to the corner. Frosh had winning record.

## Team gets 400 in fantastic year!

Making Tech history, the 1993 wrestlers recorded its 400th career team victory. Team captains Philmore Hutchins, Alo Stoller, Chris Bickel, James Sheroan, and Robert Saiters led by example and set goals for Tech's young wrestlers to achieve. Two IPSAC champs (Hutchins, 119; Stoller, 125), and IPSAC second place, two city champs (Hutchins and Stoller), a city team third place and two Carmel champs (Hutchins and Stoller), and a Carmel team second. Coach Francis Knue led the team.

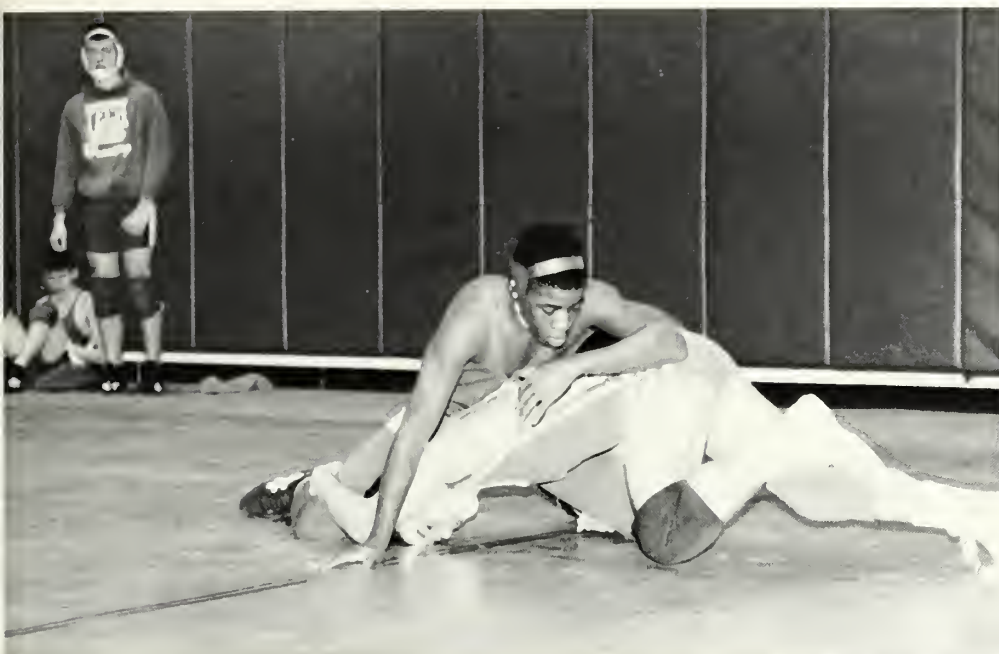

Reserve wrestlers also did well with record of 20-3-1. They were the City champs. Benjamin Willet, Tyrone Barnes, and Dennis DeBurger were city champs. Reserve coaches were Mark Brown and Jeff Lynch. Frosh wrestlers were undefeated at 14-0 and were city champs at Manual.

**VARSITY** — Kneeling: Adesa Lloyd, Nadus Pinner, Jaime Robertson, Miranda Cunningham. Standing: Marveda Saunders, Cecilia Mimms, Angel Dillard, Jameeka Davis, Eddru Douglas, Christina Moore, Takisha Russ, Torra Johnson, Christina Holland, Ron Fyffe. Eddra was the Mental Attitude winner.

**JUNIOR VARSITY** — Sitting: Janelle Griffin, Shantelle Wills. Kneeling: Tamara Hollis, Shijuana Hodges, Sylvia Maclin, Monica Chaney. Standing: Cecilia Mimms, Tamra Johnson, Arletha Miller, Korisha Gaddie, Rashada Lane, Tyonia Puckett, Latoya Taylor, Yunana Wade, Marveda Suunders.

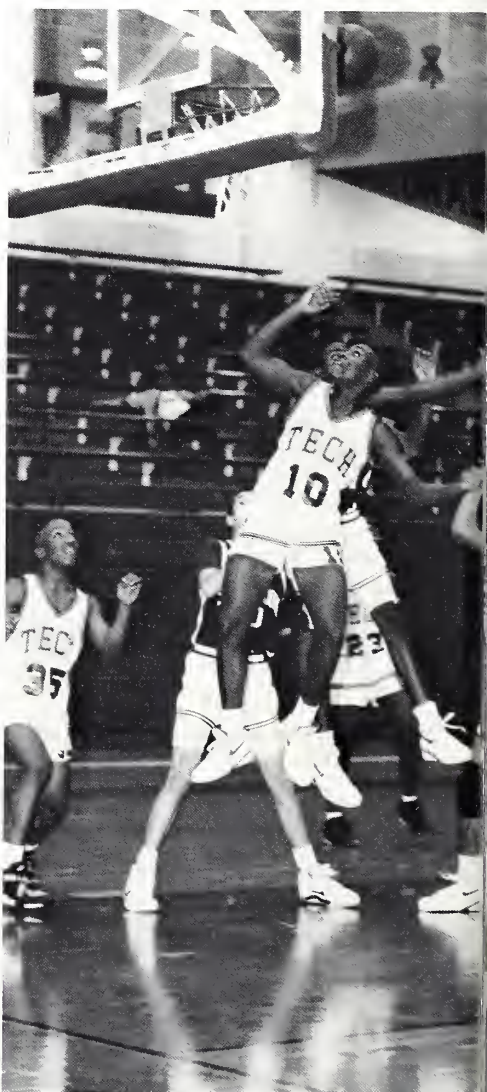

Brandi Mason looks for help as the Howe defenders trap her near the goal. They defeated Howe 60-40.

LEFT: Christina Moore looks for an outlet player. ABOVE: Nadus Pinner gets her ankle taped.

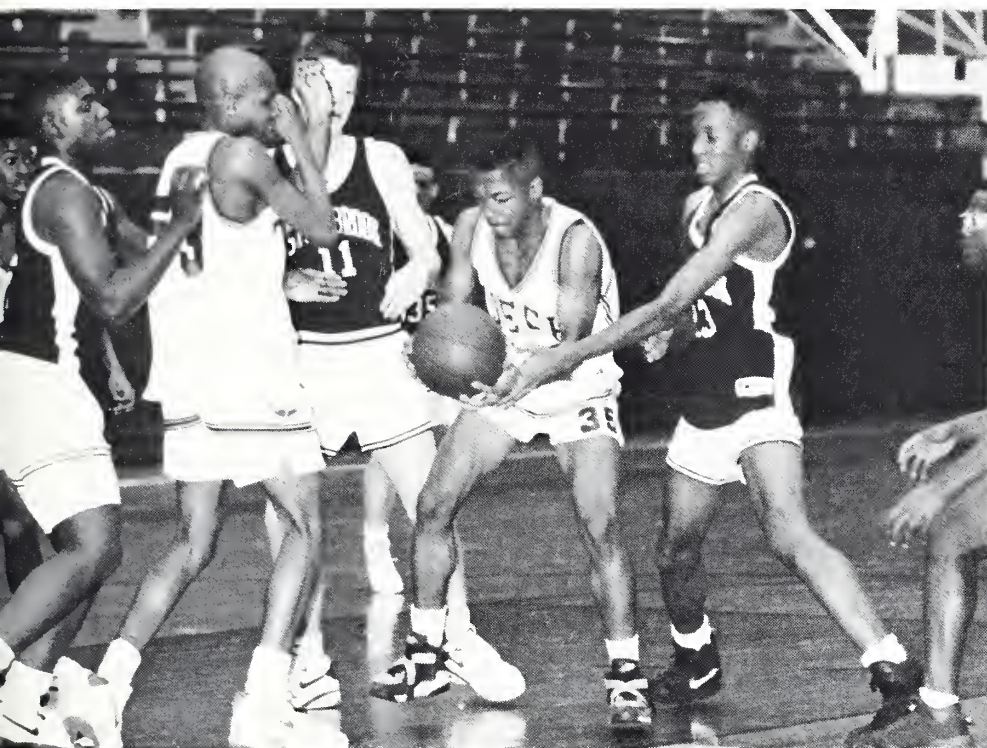

*TOP: Team huddles. MIDDLE: Demetrius Tanner blocks and goes up for the rebound.*

*LEFT: Driving for an easy two points, Ryan Smith, Tech's leading scorer lifts for the bucket. Ryan averaged 15.8 points a game in the 21 he played. His high was 24. He also made NEWS honorable mention.*

## Titan 8-13 season disappointing to all

With only three seniors returning, Coach Frank Craig knew he was rebuilding for the future. Leading scorer John Baker didn't return for the 1993 season. Stepping in to fill the void was senior Ryan Smith who had an outstanding season. He and Antonio Crumpton, who averaged 13.2 points, set the scoring pace. Crumpton also was the leading three-point man with a .402 average. Kenny Thompson, as point guard, led the assists. DeQuincy Bibbs led rebounding.

The JV team leading scorer was Cornelius Coleman. Other forces were Cornelius Dwayne Bullock and Leo Carr. Frosh finished with 6 wins and 13 losses. Deobalek Thomas led rebounding while Demetrius Tanner and Ronald Eldridge led defense. Ryan Moody and Jerry Thomas were top scorers. Good bench play came from Ryan Jones and Jovan Bonds.

TOP: Sharron Jones and James Mobley cheer starters. MIDDLE: Defense collapses.

LEFT: Agility plays importance in quickness so Coach Craig supervises the jump rope drill, always enjoyed by the players. Surprising, many drills have nothing to do with handling the ball.

**VARSITY BASKETBALL** — Kneeling: Lamont King, Ryan Smith, Kenny Thompson, Eric Coleman, Antonio Crampton, James Mobley, Joe Estelle. Standing: Mark Rush, Robert Cooley, Nasseem Alsum, DeQuincy Bibbs, Ernest Avery, Clyde March, Melvin Miller, Wendrel Price, Frank Craig. Head Coach Frank Craig and his assistants stress academics as well as basketball technique. Study table time keeps all on track.

**JV** — Kneeling: Lamont King, Jeff Rash, Dwayne Ballock, Eric Irish, Cornelius Coleman, Anthony Page, Leandrin Morris, Vernon Evans, Shannon Agee, Joe Estelle. Standing: F. Craig, Robert Cooley, Tariq Toran, James Mason, Malcom Trotter, Leo Carr, Lamont Smith, Edward Dean, M. Rush, W. Price.

**FRESHMEN** — Sitting: Ryan Jones, Jason Stewart, Demetrius Tanner, Lashanda Tipton, Ronald Eldridge, Ryan Moody, Thomas Booker. Standing: Richard Bailey, Jerry Thomas, Deobalek Thomas, Forrest Musgrove, Mark Rush, Robert Rogers, Jastin Preston, Jovon Bonds.

ABOVE: DeJuan Alfonzo helps block out for the rebound. BELOW: Dwayne Bullock MOVES!

Playing defense is the name of the game to get the offense moving. ABOVE: Basketball is a noncontact sport, yes? As these players can attest, a collapsing defense can create contact. Is that a hold on 53? Did the ref call it? BELOW: Antonio Crumpton and watches the center cut while James Mobley fronts the center. Spacing and keeping the eyes on the ball movement means feet have to react quickly. All games were videotaped. Titans use the tapes to edit for college interest later in the season.

# Cheerleaders

## City second place

*Tech cheerleaders have had a great year. They competed with other city squads in the City Tournament and took second place. They were the only IPS cheerleaders to place in the top five squads! This earned them recognition from many sources. Coach Judy Duncan has the girls sponsoring many fundraisers to promote school spirit and keep up Tech pride.*

*The girls practice long hours, including Saturdays to get sharp in their routines. They also attend camps in the summer. The squad has to maintain good grades to keep cheering. Most of the girls are also active in other clubs and sports, so they have the TECH SPIRIT.*

*Whether its a Titan cup, spirit buttons, shaker poms or ribbons, Tech's cheerleaders are constantly making sure the green and white are on display on campus.*

They placed fifth in the Hammond Morton Memorial Invitational.

First Sergeant Jerry Ridenour, responsible for the rifle team, stresses academic as well as marksmanship. All members of the team must pass all of their classes to compete and stay on the team. Some excellent marksmen had to be dropped from the team. Three of the team, Kenneth Wright, William Russell, and Kimberly Miller were selected to compete in the state championship at Purdue.

# ATHS — The School of Schools

## Connections Program begins with freshmen

*When Select Schools got the nod from Judge Dillon, Tech was ready. CHECK TECH was the slogan at the School Fair. Mary Ann Laker's video production documented the five schools proposed for next fall. They are the School of Arts and Communications, The School of Business, Industry, and Consumer Sciences, The School of Health and Human Services, The School of Foreign Language and International Studies, and the School of Math and Science. Input from the entire staff along with parent committees created vision statements. Next curriculum was designed and courses were written. Many after-school hours were involved in designing the new Tech.*

*The freshmen were nvolved in a new*

*program called Connections. The idea was to provide a "house" for a randomly selected group of 170 students. They shared the same classes and teachers. Since Tech is large with a frosh class of some 600 students, students can get "lost" in the system and never recover. The family of freshmen allow teachers to keep track of success and problem areas which could be identified and worked on immediately. Thematic teaching which meant a schedule which could be modified as teachers worked co-operatively.*

*The SIP Team, the OPD programs, the curriculum committees, the cadres — you name it, teachers were working on it. An other innovation was having college methods classes on a high school campus.*

*During Parents in Touch Day, mathematics teachers talk about student progress with parents. PIT was two days with a flexible schedule for parents. Parents became involved in many Tech projects this year.*

*Deans Lisle, Kelly, and Repass share responsibilities in student discipline.*

*David Russell assists Tech in photography when he isn't directing the DECA program and teaching.*

*Mitch Stowers has to use many kinds of equipment as he helps build theater sets. Carpentry students help build the model home as well as assist in other types of projects.*

*Mathew Foley and Anthony Brown are sophomores in the Career Center programs.*

*In commercial foods, Jackie Knox practices cake decorating. Bakery goods are popular.*

*Anthony Baham sets up his photography shot in Photography. Anthony is also on the publications staff.*

*Sometimes all the wires in the video editing operation can get confusing, especially when new equipment is added.*

*Learning how to use the switcher in the studio is easy, if all the switches are set correctly. Students from all areas of Tech use the studio for projects. Mary Ann Laker assists research students.*

*Journalism students look at class photographs to determine weaknesses and strengths. Students took polaroid group shots as practice.*

*(Danielle Clark) takes her turn at the dental exam. Students learn anatomy and procedures in a variety of health profession classes.*

*Each takes turns being the patient (Grace Bach) and the nurse (Chilnille Milbrooks).*

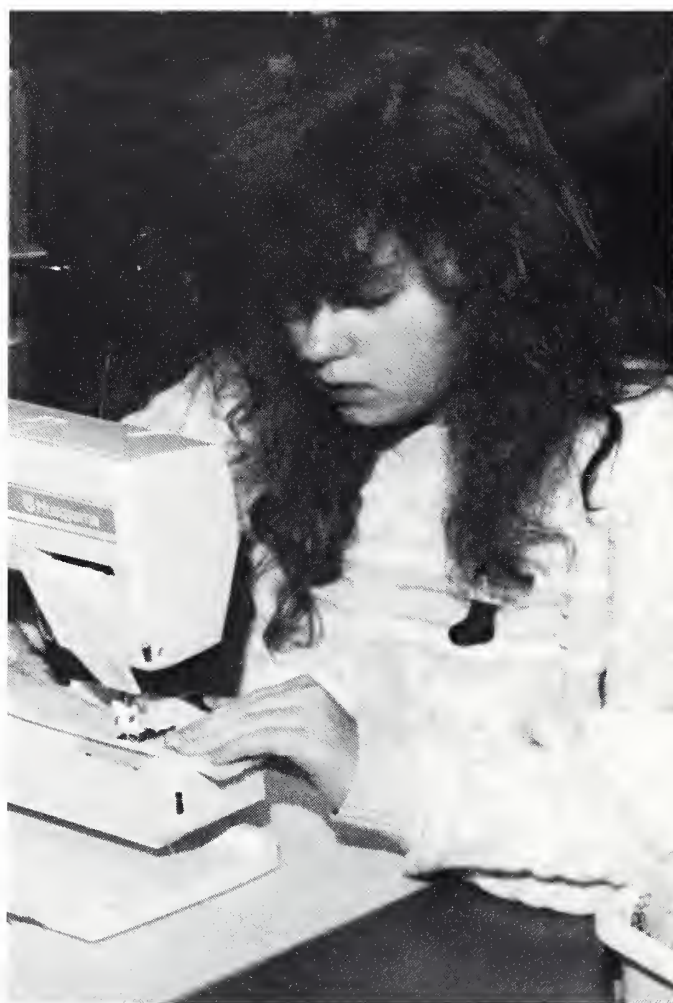

*All freshmen next year will get an idea of what each school can offer them. As sophomores, they will select a major area of study.*

*During the Health Fair, students were able to measure their lung capacity to determine problems. Smokers found some.*

*(Heather Matthews) learns sewing techniques that will become a life skill. The junior enjoys sewing.*

*FAR LEFT: Mrs. Judith Feigert aids Tony with his math in Math Seminar. LEFT: Department Head Richard Soendlin goes over a computer math project.*

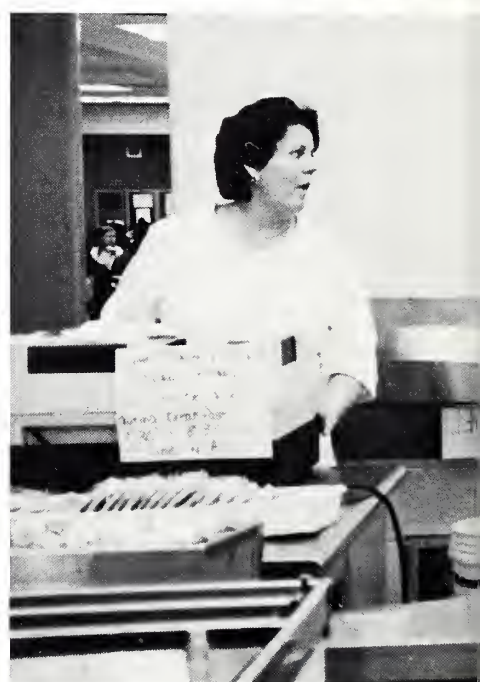

*Doing those pots and pans is a big job, and Ruth Boruff does it well.*

*Running the serving line takes patience and energy. Janice Estes is the manager of Tech's cafeteria which now publishes its menu daily in the bulletin. A salad bar was added this year.*

*Joyce Jaskiewicz checks the trays and takes tickets or cash for luncheon items.*

*LEFT: Keeping students moving and items available is a two-person job for Cleo Hopkins and Fred Townsend. Since Tech is a closed campus, most students are in the cafeteria during the four lunch periods.*

*BELOW: Communication is important between the cafeteria personnel. Clara Martin and Dela chat about the available items.*

*Rose Green, Rose Mary Rose, and Fred Townsend are on the serving line to assist students with their orders.*

*Manager Janice Estes answers a question about the cash drawer while John Pastorelli waits.*

# Stella Burton heads class to organize fundraisers

*Class officers included President Stella Burton, Vice President Serita Sams, Treasurer Felecia Manuel, and Secretary Christy Fuller. Responsibilities included fundraising for the prom and graduation.*

*Roses, pictures, key chains, and popcorn provided most of the funds. Committees met through the year with sponsors Mrs. Lisa Buggs and Mrs. Sharon DeLong.*

*Making their mark for the Senior Class were Lasoka Brimmage and Michael Buselli. Lasoka, in the Commercial Foods program, scored first in food service at National HERO Competition. She had*

*one hour to make soup, an entree, and desert. She also won several awards for cake decorating. Michael, in the Foreign Language Magnet, was given the opportunity to visit Japan last summer as part of a youth program.*

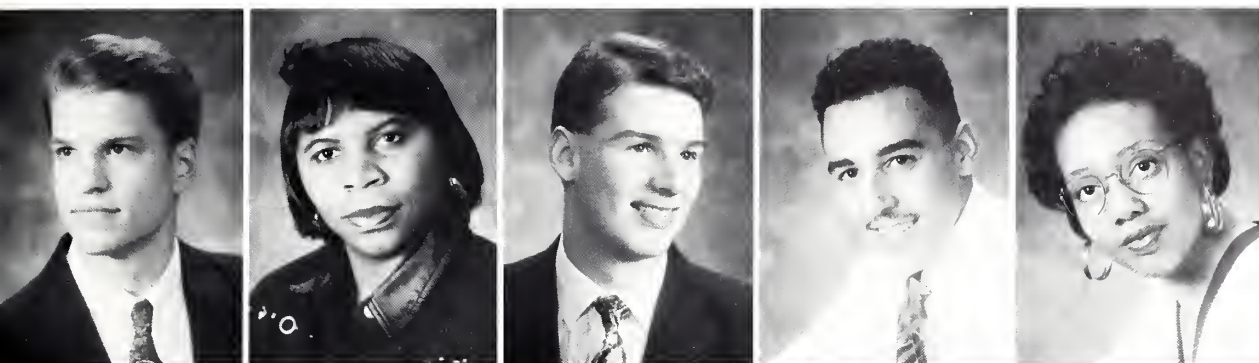

*Other newsmakers included Lemar Moreland, Dawn Wyeth, and Charity Wyeth who captured their fair share of speech prizes. Jeff Walls and Shauntel Neal attended Boys State and Girls State. Jeff was elected as one of eight county chairmen and a state senator.*

*Accepting his award of a trip to Japan from a representative of Senator Coats' office is Michael Buselli. Michael's father Robert proudly watches.*

# First Health Fair attracts Titans

*Tech students had the opportunity to win 120 prizes given by The Associated Group, I-Star, and the Tech Teen Clinic. The three groups sponsored the first annual Health Fair which had booths and demonstrations outside on the campus and inside the gym. The winner of the bicycle helmet was Anthony Rogers.*

*Students in the Health Profession Magnet practiced basic eye tests on students. Blood pressure, co-ordination, and strength tests were part of the day as was free food, posters, and pens. All Tech students had the opportunity of going from booth to booth to collect information*

*about all aspects of health.*

*Since the grand experiment was enjoyed by all the students and staff, another is planned for the spring. The Associated Group is one of Tech's partners in education.*

*Career Center has had an annual Job Fair for juniors and seniors where they can go from booth to booth collecting good information about possible careers. New this year was Arts on the Green, a opportunity for students and staff to display and demonstrate a variety of artistic skills. Planning for this event began with Mr. Slover and Mrs. Hartshorn.*

*Students found manipulating a wheel chair wasn't as easy as it looked, especially when trying to open and close a door.*

*Strolling the variety of exhibits was fun for Titans. Displays were both colorful and full of information on a variety of health topics from drugs to AIDS.*

*Dountonia Slack participates in the eye exam hosted by the Health Professions Magnet. Many students lined up for this and the blood pressure test.*

*Methodist Hospital, the Tech Teen Clinic partner, focuses on health careers in their display. After the April wind kicked up outside, students found the gym attractive.*

# Fire, snow, Select Schools, remodeling — all at ATHS!

**ABOVE:** Beta Club visited the governor's mansion and assisted in helping with the Holloween project.  
**BELOW:** Campus Monitors Karen Glover and Larry Sowell are interviewed by journalism students.

The snow didn't come until late, but IPS decreed two snow days. That wasn't the only interruption in regular classes. The fire displaced the Applied Technology classes. Heating problems, dropping tiles in the pool area, PBA days, visitors on campus, and the regular problems that come with a campus when it's rainy or cold don't stop Tech staff and students from accomplishing their goals. Education goes on. Expectations are high. New students blend with old; new staff are welcomed and fit into the "routine."

IUPUI and Tech became involved in student teacher training in English and Social Studies. College students interact with high school students and teachers on a regular basis.

Green Machine members plant trees on a regular basis on campus. Active in ecology areas, members study and serve. **RIGHT:** Seen in Washington, D.C., Constitution Team members came in third in the nation. This year's team was second in the state despite having a higher score than the 1992 team. Mr. Karl Schneider was the sponsor of the successful team.

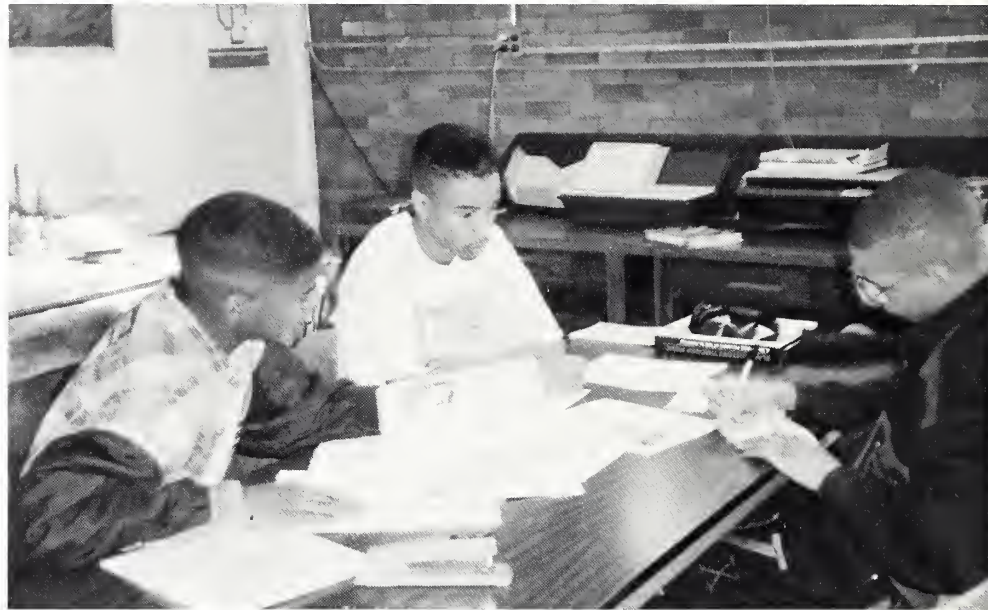

*Medical Assistant Betty Black talks with a student in her office. Two snow days stopped classes, but the snow made the campus beautiful. Quick work by Mr. Duffy's custodial staff cleared walks and parking lots.*

*Freshmen Connection students had winning entries in the History Day competition. John Rogers, John Cavanaugh, and Scott Bostic work on their rap presentation. Jennie Nance and Linda Mains project was on tabloids.*

*MODEL UN — New Zealand Natalie Gilbert, Cardinal Etudor, Tina Moynihan, Sharon Moore.*

**MODEL UN — NEW ZEALAND:** David Headrick, Claude Hodge, Brooke Love, Nicole Jackson, Leandrin Morris, Keisha Spivey.

**MODEL UN — MOZAMBIQUE:** Deslyn Phillips, Daphne Ellington, Sandra Gillespie, Mike Bogan. Tech did well in competition. Students competed in March.

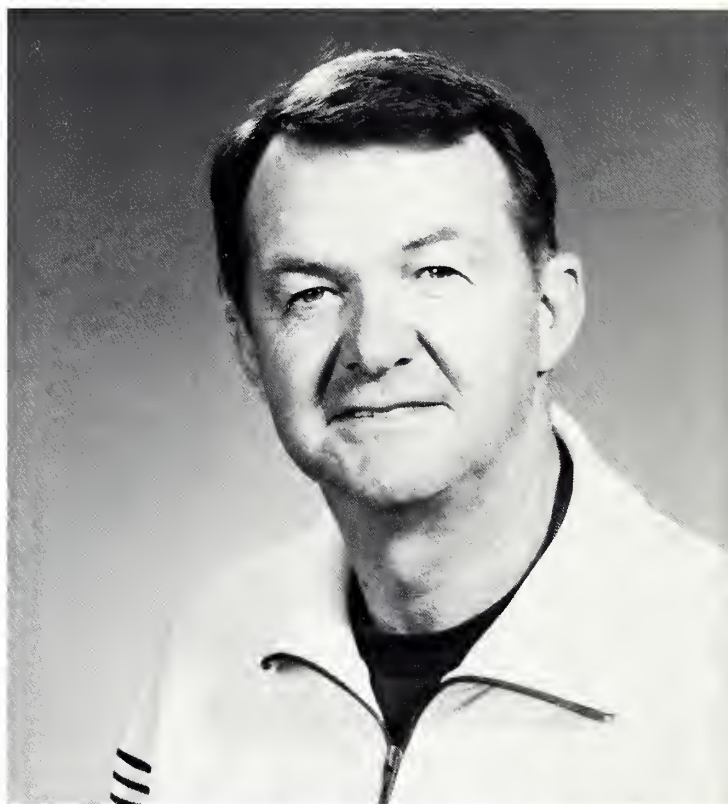

**MODEL UN — COSTA RICA:** Front Row: Melissa Hillenburg. Second Row: Mike Purvis, Tim Owens, Jane Hodge, Matt Meirs, Rarushana Pack.

**HISTORY DAY:** Patti Gulkersen and Catina Henderson work on their display of the history of the telephone.

The John W. Hurrle Wrestling Room was dedicated May 22, 1992. Mr. Hurrle had been a teacher at Tech for 30 years and a department head for seven years. He coached wrestling for 26 years. His teams of 1976 and 1979 were state champions. Teams of 1972 and 1978 were City champs. He was Indiana Coach of the Year in 1976, 1979, and 1981. A past president of Indianapolis Wrestling Association, he was a member of the Indiana Wrestling Hall of Fame and a founding father of Indiana State Wrestling Association. "Do what is best for the kids" was his motto. Master of Ceremonies Jim Scahill introduced speakers Howard Catt, for AD at Tech; Fred Kelly, Hosea Ingram, and John Koontz. A memorial fund was begun to honor Mr. Hurrle. RIGHT: Mr. John W. Hurrle. BELOW: Coach Francis Knue, Mrs. John Hurrle, Howard Catt, Tech wrestlers.

**LEFT: Front Row: Secretaries Lynette Eaves, Michelle DeJones, Gwen Henderson. Second Row: Janice Capshaw, Dorothy Collier, Bonnie Brentz. RIGHT: Secretary to Vice Principal Prather, Joan Carey.**

**CAREER CENTER GUIDANCE COUNSELORS — Seated: Barbara Weilhamer, Virginia Kersey. Top Row: Beverly Robinson, Elaine Pierce.**

# Juniors focus on careers and prom

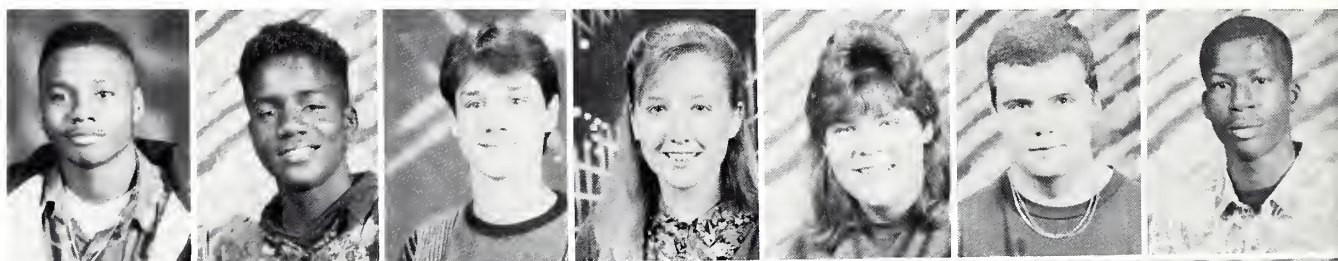

Under the leadership of President Joyce Brewer, Vice President Kristy Dowdy, Secretary Chilnille Milbrooks, and Treasurer Sherita Moore, the Junior Class planned many fundraising projects. T-shirts, key chains, calendar planners, pop corn, and candy grams meant prom money. Sponsors were Mrs. Glenda Graham and Mrs. Chennetha Talib. The class goal was to raise at least \$1,000 for prom expenses.

Tooring the football field is fan for the juniors. Juniors also had a key role in "Harvey."

Food careers are explored in Colonel's Cupboard.

# Sophomores in the know

Sophomores continued cooperative learning in their math and English classes. Alternative assessment, focusing on more than paper test skills, became common. Students produced videos, artwork, and other visuals. They also gave speeches and worked in groups. Stress in class was on thinking skills as well as getting the "right" answer to the problem. Many also became active in student government.

Cory Warren has everything under control in his match. Students in all areas use the tv studio.

# Frosh begin Connections

New to one group of freshmen was a lot program called *Connections*. These frosh were a "family" of 145 students selected randomly from the 600 enrolled. They shared the same core teachers. Assignments were thematically based. Group work was stressed. The teachers were able to plan work, create time models, and intervene with student problems faster because they met regularly as a group. Next year more *Connections* are planned.

Rebecca Kueterman assists frosh in the Magnet computer room in Stuart. Carl Moore strains to hold his position. Learning to work in groups is important in all classes.

*Changing face of Tech's campus includes Stuart Hall, home to art, special education, connections, math, health professions, math/science magnet, and computer classes. Students from many areas use the computer labs in Stuart which was renovated on the outside last year. Next is scheduled inside remodeling.*

***Select Schools will be coming to Tech next year. In the future for 1995 is the Gateway Text, a test which all Indiana students must pass to graduate. Life just keeps on getting more complicated and more exciting. The Class of 1993 has left its mark on Tech. When they next return to campus, they will find some familiar faces, but the whole curriculum will be quite different. Tech — the School of Schools!***

*First Lady Hillary Rodman Clinton looks toward Principal June Collins Rimmer as Indiana's First Lady Mrs. Bayh talks with a student in the Media Center. Tech is getting used to VPI visits. Mrs. George Bush visited last year. The Tech campus is regularly used by many IPS and state of Indiana groups for meetings.*
